- It was noted that the water and sewer rates effect everyone on council nobody during the public hearing had any objection to council reviewing this information. Doug Peters brought up the fact if the city could sell or lease out the south basin system to its users. It seems the city spend a lot of funds to operated this system with little revenue from it. The city doesn't want to take the chance of losing its water rights. It would be drawn up in contract the city still has those rights.
